Metrics Monthly Bulletin: May 10, 2018

Spotlight on: Sexual and Gender-Based Violence and Female Genital Cutting (FGC)

MEMBER SPOTLIGHT

Amref Health Africa, the largest African-led international organization on the continent, provides training and health services in 35 countries in Africa. In 2009, Amref Health Africa launched the Alternative Rite of Passage (ARP) initiative, which "is a community-led and community-driven cultural alternative to FGM/C that retains the harmless cultural rituals and celebrations around womanhood while removing the harmful cut for girls." Since the launch of that initiative, more than 15,000 girls have avoided FGM/C. Read more about Amref Health Africa's exciting work and learn more at our upcoming webinar on FGM/C (details below).
